

Differences Between Outlook and iPhone

Most features of the Outlook App are similar to the iPhone built-in mail app. Outlook is also compatible with apple watches.

There are some differences. See the table below for known differences.

<p>Outlook app Email, Contacts, and Calendar in same app</p> 	<p>iPhone built-in mail Email, Contacts, and Calendar in different apps</p> 
<p>Integrates with OneDrive by default</p> 	<p>Integrates with iCloud by default</p> 
<p>Calendar has two week agenda view, day view, and 3-day view. All views show appointments.</p> 	<p>Calendar has year, month, and day views. However only the month and day views show appointments.</p> 
<p>Outlook Inbox Style</p> 	<p>iPhone Inbox Style</p>
