Enroll a (non-smart) Cell Phone in Duo

If you already have another phone enrolled, use the “Enroll Additional Authentication Device” instructions instead.

Email and other O365 applications are only directly accessible in UC Davis Health facilities.

To access email and O365 applications from home, on the road, or on the university campus you must use Multi Factor Authentication (MFA). In addition to entering your userid and password, you must register a device as an authentication token. To register a basic cell phone, follow these instructions.

1. Use Edge or Chrome (not all browsers work) to access the HS MFA Portal website at: https://hsmfa.ucdmc.ucdavis.edu
2. Click the gold Enroll O365 Banner CAS bubble

3. Click Enroll.

If you have never enrolled an authentication device (e.g. Phone) in Duo before, use the Enroll button to begin. You will need your employee ID.

If you already have an authentication device enrolled in Duo and want to make changes to it or enroll another device, use the Manage button below to begin. You will need your Kerberos (email) userid and password.
4. Enter information and press **Submit information.**

**NOTE:** A Student/Employee ID# is required. Your employee ID number is located at the bottom of your UC Davis Health ID badge.

5. The **Manage Services for Your LoginID** screen displays. Confirm that your Kerberos username displays in the **LoginID** field and click **Continue.**

6. At the next screen, select the radio button for **IDUO Duo Multi Factor Authentication** under **You subscribe to the following manageable service**, and click **Continue.**
7. Your browser opens to the Duo Enrollment screen. Click **Start setup**.

8. You are prompted to select the type of device you are adding. Select **Mobile phone**, and then click **Continue**.

9. Enter your mobile phone number in the space provided.

10. After entering the phone number, a second field displays for you to confirm the number. Check that the number is correct, select the checkbox, and then click **Continue**.

11. Select **Other** as the type of mobile phone you are enrolling, and then click **Continue**.
12. Verify that your phone number is correct, and select an authentication option for When I log in. Click Save, and then click Finish Enrollment.

13. The Enrollment Successful screen displays. Click Dismiss to finish.
