

Enroll a (non-smart) Cell Phone in Duo for VPN

Cisco Anyconnect VPN connections now require Multi-Factor authentication (MFA).

To use MFA, in addition to entering your userid and password you must use a registered device (usually a smart phone) as an authentication token.

If you have never registered a device in Duo security MFA, use these instructions to register a cell phone.

If you have registered a device for EPCS then you do not have to register another device.

If you already have a device registered for EPCS but want to register a different device for VPN, do not use these instructions. Instead use guide "Enroll an Additional Device for VPN".

If you have registered a device for O365 or Banner, you will need to reregister it in the VPN system, these instructions will help you do that.

There are separate guides for registering smart phones and land lines.

1. Access the HSMFA website at:
<https://HSMFA.ucdmc.ucdavis.edu>.
2. Click **Enroll EPCS VPN Citrix**.

UC Davis Health MFA Self Service

3. If you are Authorized to use VPN, Click **Proceed**.

Both EPCS and AnyConnect VPN require prior authorization for access.
Enrolling a device will **not** authorize access.

This portal is intended for users who are already authorized and need to enroll a device or change an existing enrollment.

If you are uncertain about your authorization status, contact the Technology Operations Center at [\(916\) 734-4357](tel:9167344357).

If challenged for a password, use your windows userid and password.
Do **not** put / in front of your userid.

HS Apps (Citrix), does not require preauthorization.

If you need authorization for **VPN**, apply at
<https://www.ucdmc.ucdavis.edu/remotefaccess/downloadform.html>.

If you need authorization for **EPCS**, follow the procedure at
https://intranet.ucdmc.ucdavis.edu/emr/projects/eecs_duo.shtml.

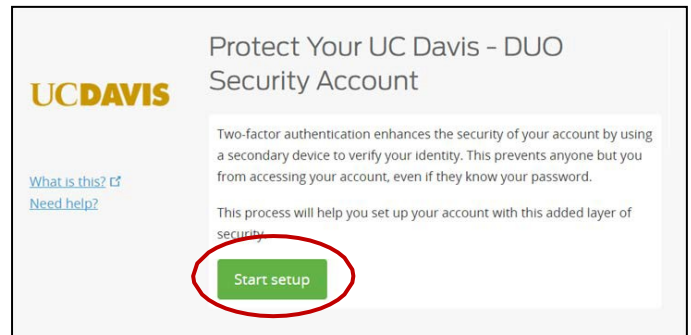

Note: The intranet.ucdmc.ucdavis.edu site is internal and can only be accessed from inside UC Davis Health.

Prior Approval Warning

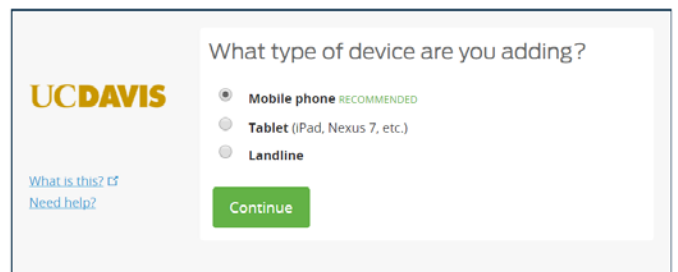

4. If you use a non-Microsoft browser, or if you log in from outside the UC Davis Health Network, you will be challenged for your login ID. Use your normal windows login credentials.

Forefront Login

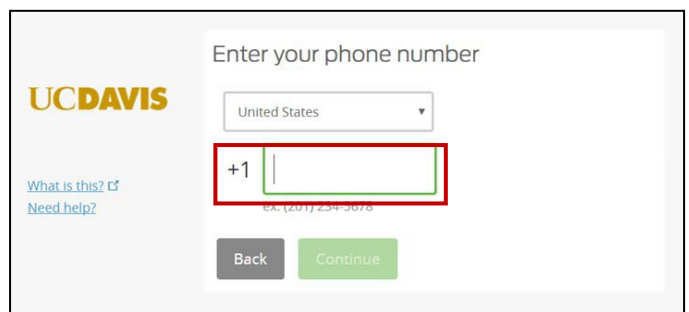

5. Your browser opens to the Duo Enrollment screen. Click **Start setup**.

6. You are prompted to select the type of device you are adding. Select **Mobile phone**, and then click **Continue**.

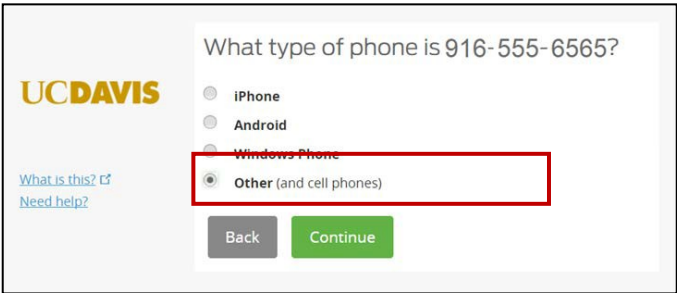

7. Enter your mobile phone number in the space provided.

8. After entering the phone number, a second field displays for you to confirm the number. Check that the number is correct, select the checkbox, and then click **Continue**.

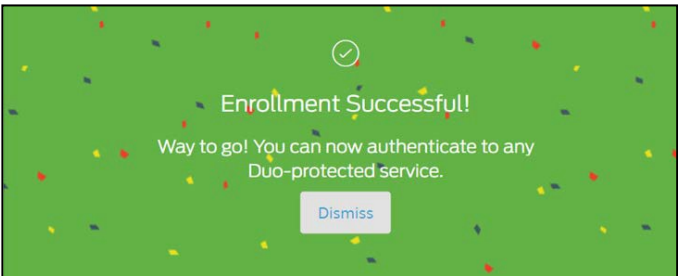

9. Select **Other** as the type of mobile phone you are enrolling, and then click **Continue**.

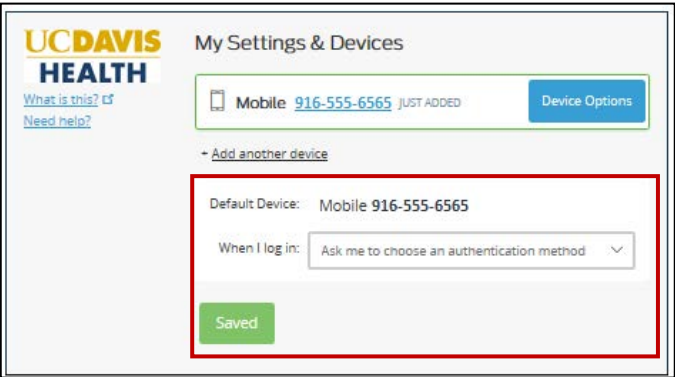

The screenshot shows the UCDavis mobile phone enrollment screen. The title is "What type of phone is 916-555-6565?". There are four radio button options: "iPhone", "Android", "Windows Phone", and "Other (and cell phones)". The "Other (and cell phones)" option is selected and highlighted with a red rectangle. Below the options are "Back" and "Continue" buttons. On the left side, there are links for "What is this?" and "Need help?".

10. The **Enrollment Successful** screen displays. Click **Dismiss**.

11. Verify that your phone number is correct, and select an authentication option for **When I log in**. Click **Save**, if you made any changes.

The screenshot shows the "My Settings & Devices" screen in the UCDavis Health app. At the top, there's a "Mobile" entry with the number "916-555-6565" and a "Device Options" button. Below that is a link to "Add another device". A red rectangle highlights the "Default Device" section, which shows "Mobile 916-555-6565" as the default. Below this is a "When I log in:" dropdown menu set to "Ask me to choose an authentication method". At the bottom left of the red rectangle is a "Saved" button.

12. All Done. Close the browser tab or window.
